PROGRAM SUMMARY
AN ART HISTORY EMPHASIS
The BA in Art with an Art History emphasis provides a rigorous liberal arts education with a focus on the history and theory of art and design. Students take classes with expert faculty on periods ranging from Greek and Roman art to art of the present day, and in topics as diverse as the History of Industrial Design, Contemporary Native American Art, and Women in the Visual Arts. The senior thesis, typically written in the last semester of study, is a capstone project in which students work closely with a professor on an original research topic.

Students benefit from access to original works of art in the University Museum's collections and the Special Collections of Morris Library. Many classes offer field trips to the museums, galleries, and archeological sites in and around St. Louis and the region. Students run the Art History Association, a Registered Student Organization for SIU students interested in the history of art.

RECENT EVENTS
Recent activities of the Art History Association have included weekend trips to the museums and galleries in Chicago, day-trips to St. Louis and New Harmony, IN, an exhibition of “recycled art,” lectures each semester from visiting art historians, curators, and art critics (provided through the Visiting Artist Program), and a film series featuring films about artists.
