

ANTH455B

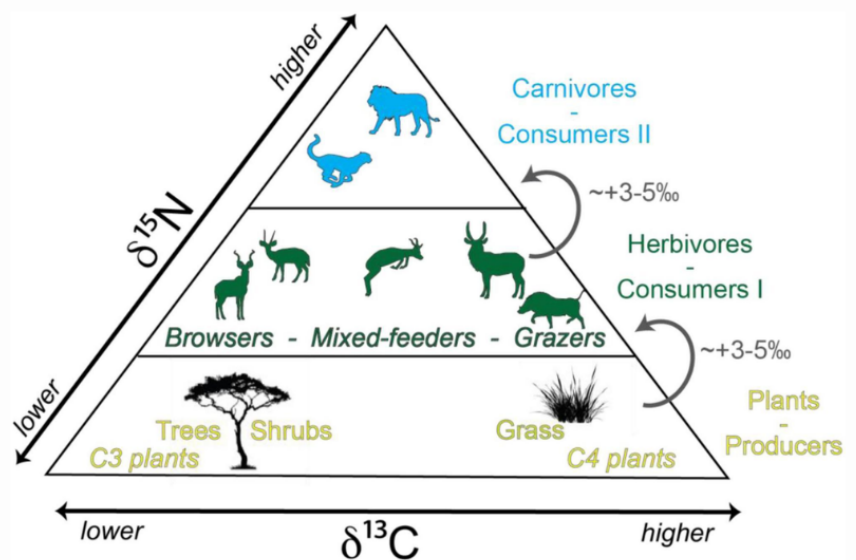

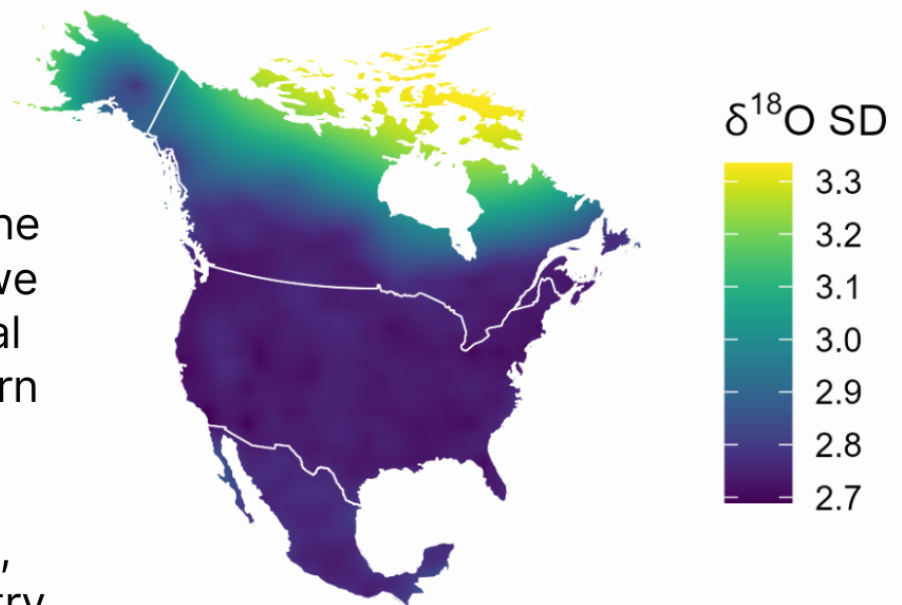

SPECIAL TOPICS IN BIOLOGICAL ANTHROPOLOGY

SIGN UP FOR SPRING 2026

We build our bodies out of the food we eat and the water we drink, reflecting our physical and social environment. Learn how chemistry unlocks insights into forensic anthropology, archaeology, and primatology. No chemistry background required, let's learn the fundamentals of stable isotopes and their applications.

TOPIC HIGHLIGHTS

- Stable Isotope Ecology
- Geolocation and Migration
- Diet and Foodwebs
- Creating Compelling Anthropology

NO PREREQUISITE REQUIRED

DR CHRIS STANTIS
